My Friend – Alabay MY FRIEND – ALABAY

That many dogs, pass road to green light of a traffic light together with blind people, help shepherds, protect their family, the property is known for a long time also ourselves many times was witnesses. But the given vital history absolutely about other ...

Ours has sat down to be close an old barrow, at крестце the Great Silk way and further the road follows lengthways desert on the south.

The sky over селой usually dark blue-dark blue, and air is pure and transparent. The lowland of our village is filled with rain water and formed small lakes. In the spring it to serve as a stop for birds of passage, hot days of summer children with pleasure bathe. Who has dragged here a small wooden boat remains a riddle.

Once, at late night, in inhabited the house there was a fire, the mistress with the daughter strong slept. In a hen house house birds with a loud cackle clapped wings. Having felt wrong Alabay, could reach in a bedroom of the mistress and the we will bark to wake her. The child has screamed and scaredly cried. The mistress of the house did not have a possibility to get out of the house, she has already reconciled to the fate. And suddenly she has felt that the dog has tightly grasped its clothes and pulls to an exit. It has completely relied on a canine friend, and it has rescued them from destruction. The woman with the child left the burning house whole and safe. After that case of Alabay became a live legend of village.

Alabay love and fidelity concerned the owner. When arose a question they have solved it промех itself. The father always spoke, on fidelity and fidelity from dogs, perhaps, any pet will not be compared that very much appreciates the loyal friend and is grateful for life rescue. It was unseparable

within several years.

After a birth small doggies were presented to father Dzhuma aha, by the notable cattle breeder эрпана. It was black-and-white and the father has named the doggie of Alabay. He has grown with a dimension a dog, followed on everywhere the owner. For all life if suddenly it someone also has frightened, it is exclusively unintentional, yes that can also – only in the size. The father told that he did not see an animal more cleverly – neither to, nor after.

Have passed years. Heads took away forces of a dog and it threatened with fast separation.

Somehow time, from a city in ours has sat down, has arrived to have a rest and admire the nature very intelligent relative Ahmed. The young man rural life saw only on the TV, read under books, knew under stories of others.

Having seen old, ailing Alabaja, he there and then has begun to preach to the father. Appealed to their humanity and told that,

After that ill-starred conversation the dog lay for days on end on the earth, having enclosed paws under a head, with grief and is indifferent looked at the world.

Once Ahmed took itself Alabay on walk in the nature. It was the strange act. Through some time it has planted a dog in a boat, some time прокатил on lake.

Alabay by swimming to Ahmed and strong having seized by his hands has not allowed to sink at it. Fortunately, they remained live and safe.

In the beginning in the autumn the dog somewhere has disappeared, neighbours spoke that that without lunar night has sparkled a lightning, a dog plaintively howled. We searched for it long, but is ineffectual. Hoped that will come back, but it has not returned. After some time we have found out a dog in a cave dead, but any traces of violent death have not found out. The father told to us, having scented approach of death, dogs usually leave in a cave. That the owner would not see the true assistant suffering and they finish there the last days.

In the millenia kept the cleanliness, an ancient genotype, fearlessness, endurance, reliability, fidelity to the owner, characteristic line алабаевской breeds of dog. These characteristic features, truly became symbols of fidelity and during our epoch.
